TABLE OF CONTENTS FOR N. V. FEDOROV'S BOOK, "GEODESY"

This second edition, edited and supplemented by Docent F. A. Korshak, Candidate of Technical Sciences and Inzhener-Mayor of Roads and Construc- tion, has been authorized by the Personnel Division of the Main Administra- tion of Highways, Ministry of Internal Affairs (MVD), as a textbook for high- way and railroad technical schools.

Chapter I. Introductory Information; Elements of the Plan and Map

| | Page |
|---|------|
| 1. The Object of Geodesy | 3 |
| 2. Scientific and Practical Importance of Geodesy | 4 |
| 3. The Concept of the Form and Size of the Earth. Main Points | 5 |
| Lines, and Angles of the Terrestrial Sphere | 7 |
| 4. Plan, Map, and Profile | 9 |
| 5. Classifications of Surveys. Units of Measurement | 10 |
| 6. Scales | 13 |
| 7. Varieties of Topographical Forms. Grade. | 14 |
| 8. Conventional Signs for Local Objects and Topography | 16 |
| 9. Construction of Horizontals From Points | 18 |
| 10. Solution of Problems From a Horizontal Plan | 21 |
| 11. Drafting Materials, Instruments, and Appurtenances | 23 |
| 12. General Information on Topographical Maps | |

Chapter II. Preliminary Information on Geodesic Instruments

| | |
|--|----|
| 13. General Information on the Main Geodesic Instruments | 27 |
| 14. Levels | 28 |
| 15. Diopters and Telescopes | 30 |
| 16. Dials and Verniers | 33 |
| 17. Maintenance of Geodesic Instruments | 37 |

Chapter III. Designation, Measurement, and Orientation of Lines

| | |
|---|----|
| 18. Designation of Prints at a Locality | 38 |
| 19. Suspending Lines | 39 |

| | <u>Page</u> |
|--|-------------|
| 20. Measurement of Lines by Tape | 42 |
| 21. Measurement of Lines by Range Finder | 45 |
| 22. Measurement of Lines by Paces | 47 |
| 23. Reduction of Lines to the Horizontal; "Eclimeters" | 48 |
| 24. Reduction of Lines to the Horizontal for Range-Finder | 50 |
| Determination of Distances | 52 |
| 25. Optical Squares | 54 |
| 26. Orientation of Lines According to True Longitude | 56 |
| 27. Orientation of Lines According to Compass | 57 |
| 28. Compasses | 60 |
| 29. The Simplest Methods of Determining Magnetic Declination | 62 |
| 30. Orientation of Lines According to Axial Meridian | |
| Chapter IV. The Theodolite and the Theodolite Survey | |
| 31. General Description of the Theodolite | 64 |
| 32. Checking the Theodolite | 66 |
| 33. The Theodolite TT-2 | 71 |
| 34. Measurement of Horizontal Angles by the Theodolite | 72 |
| 35. Goniometric Survey; Methods of Surveying | 76 |
| 36. Determination of the Direction of the True Meridian | 80 |
| Chapter V. Office Work in Goniometric Surveys | |
| 37. The Content of Office Work in Goniometric Surveys | 83 |
| 38. Processing the Surveying Results and Drawing Up a Compass | 84 |
| Point Plan | |
| 39. Connection of a Rectangular Coordinate System With Results | 88 |
| of Field Measurements | |
| 40. Processing of Surveying Results for Constructing a Plan in | 90 |
| Coordinates | 93 |
| 41. The Inverse Geodesic Problem | |
| 42. Processing the Results of Measurements Along a Diagonal | 94 |
| Course | |
| 43. Construction of a Coordinate Network; Laying Out the Plan | 96 |
| in Coordinates | 98 |
| 44. Determination of Area by Graphical and Analytical Methods | 101 |
| 45. The Planimeter; Determination of Areas by Planimeter | |
| Chapter VI. Laying Out the Route at the Site | |
| 46. Purpose of Lines of Given Direction at the Site | 104 |
| 47. Measurement, Layout, and Checking of Route Curves | 106 |
| 48. Laying Out the Route | 108 |
| 49. Laying Out Pickets (Stakes at 100-Meter Intervals) on | |
| Straight Lines. Keeping Up the Picket Field Book | 110 |
| 50. Elements of Circular Curves; Tables | 114 |
| 51. Detailed Layout of Circular Curves; Taking Points From | |
| the Tangent on a Curve | 116 |
| 52. Pickets on Curves; Layout of Main Points | 118 |
| 53. Layout of Long Curves; Multiple Curves | 120 |
| 54. Hairpin Turns | 121 |
| 55. Transitional Curves | 123 |
| 56. Calculation of Picket Designations of Main Points of | |
| Transitional Curves and Laying Them Out at the Site | 126 |
| 57. Detailed Layout of Circular and Transitional Curves by the | |
| Method of Secants | 128 |

Chapter VII. Geometric Leveling

| | |
|--|-----|
| 58. The General Concept of Geometric Leveling | 130 |
| 59. Level Rods; Installation of Rods and Production of Readings | 133 |
| 60. Main Types of Levels and Their Characteristics | 135 |
| 61. Dumpy Levels | 139 |
| 62. Dumpy Levels With an Elevation Screw | 142 |
| 63. Levels With a Telescope Barrel | 144 |
| 64. Leveling From Pickets; Keeping up the Field Book | 148 |
| 65. Influence of Topography Upon Selection of Stations; Leveling; Leveling of Gulleys | 152 |
| 66. Field Checking of Leveling | 155 |
| 67. Drawing Up the Longitudinal Profile; Layout of Plan Data | 157 |
| 68. Leveling of Transverse Profiles and Areas | 163 |
| 69. Use of a Level to Determine the Area of a Basin and the Slope of a Water-Collecting Depression | 165 |
| 70. Leveling of Rivers; Survey of Live Cross Sections | 168 |

Chapter VIII. Tachymetric Surveying

| | |
|--|-----|
| 71. General Principles of Tachymetry | 171 |
| 72. The Vertical Circle Theodolite | 172 |
| 73. Alidade of the Vertical Circle | 175 |
| 74. Trigonometric Leveling | 177 |
| 75. The Technique of Calculating Heights | 180 |
| 76. Instruments for Tachymetric Surveys | 183 |
| 77. Work With Tachymeters at the Station | 185 |
| 78. Purpose of Characteristic Points at the Site; Study of Rough Sketches and the Field Book | 188 |
| 79. Use of Tachymetric Surveys in Road Searches | 192 |
| 80. The Tachymetric Survey in Reconnaissance Searches | 196 |

Chapter IX. Plane Tabling

| | |
|---|-----|
| 81. General Principles of Plane Tabling | 198 |
| 82. The Plane Table and Its Appurtenances; The "Kipregel" | 199 |
| 83. Layout of Plane Tabling and Orientation of the Plane Table | 202 |
| 84. New Instruments for Plane Tabling | 204 |
| 85. Determination of Base Points for Surveying; The Geometric Network | 205 |
| 86. Determination of Difference of Heights of Points in the Geometric Network | 207 |
| 87. Survey of Details | 210 |
| 88. Transitional Points | 214 |

Chapter X. Geodesic Works of Low Accuracy

| | |
|---|-----|
| 89. General Principles of Barometric Leveling | 216 |
| 90. Instruments for Barometric Leveling | 217 |
| 91. Organization of Barometric Leveling | 220 |
| 92. Calculation of Barometric Leveling | 223 |
| 93. Automatic Levels | 226 |
| 94. Survey by Sight | 228 |

Chapter XI. The Concept of "Photogrammetric" Surveys

| | |
|--|-----|
| 95. Basic Information From Photogrammetry | 231 |
| 96. The Theory of the Stereophotogrammetric Survey From the Ground | 233 |
| 97. The Content of Works in Stereophotogrammetric Survey From the Ground | 236 |

| | |
|--|-----|
| 98. Aerial Photographic Survey and Works on the Ground Connected With it | 238 |
| 99. Office Works in Aerial Photographic Surveying | 242 |
| 100. New Methods for Photogrammetric Surveys | 245 |
| Chapter XII. Additional Information on the Organization of Official Geodesic Works and on Evaluation of Their Accuracy | |
| 101. The Content and Purpose of Official Geodesic Works | 248 |
| 102. Training for Expeditionary Works | 250 |
| 103. Providing the Works With Cartographic Data; Drawing Plans and Maps | 252 |
| 104. Geodesic Works in Searches for Roads and Bridge Crossings | 254 |
| 105. Geodesic Service to Construction Works | 257 |
| 106. Carrying Out Office Works During the Expedition Period | 260 |
| 107. Tying the Route to the Base Geodesic Points | 262 |
| 108. Evaluation of the Accuracy of Results of Geodesic Measurements | 266 |
| 109. Determination of the Accuracy of Results of Geodesic Calculations | 270 |
| 110. Processing of Measurements Which Are Not Equally Accurate; Organization of Checking of Geodesic Works | 272 |
| Bibliography | 276 |
